Samkelo Oneal Shambal

Data Analyst/Software Engineer/ IT Technician

Driven 24-year-old computer science graduate with a diverse skill set spanning software engineering, data analysis, database management, and project magement. Proficient in programming languages such as Python, Java, C, R, and Android development. Experienced in designing, developing, and maintaining software applications using agile methodologies, working with relational databases, and collaborating effectively within cross-functional teams. Eager to leverage my technical expertise and problem-solving abilities to drive innovation and contribute to the growth of an organization, while staying up-to-date with the latest industry trends.

Experience

January 2022 - December 2023
Enactus Emcu | Mbabane

IT Officer

As an IT Officer in Enactus EMCU I provided comprehensive technical support and IT management for the organization including troubleshooting, network administration, database management web development, hardware and software setup and also worked hand in hand with the marketing office to research and evaluate new technologies, making recommendations on how to improve the organizations infrastructure. Through this role I demonstrated strong problem solving skills, attention to detail and a customer-focused approach.

October 2023 - February 2024
Eswatini National Library Service | Mbabane

IT Assistant

I was responsible for providing comprehensive technical support and managing the library's IT systems. My duties included troubleshooting hardware and software issues, administering the local network, setting up new equipment, performing regular data entry and data backups, and working closely with the library's outreach and programming teams to research and implement new technologies that could enhance the user experience and improve access to digital resources. I also assisted with maintaining the library's website and digital archives to ensure seamless access for patrons. Through this role, I demonstrated strong problem-solving skills, attention to detail, and a commitment to supporting the library's mission.

2020 - Present
Case Artworks

Head Of Operations

As the sole designer at the small graphic design company Case Artworks, I was responsible for creating all visual assets and materials needed to serve our clients. This involved conceptualizing designs, executing illustrations and layouts, and ensuring the final products met the clients' requirements and brand standards. My role centered entirely on the design process - from ideation to final delivery. Through this independent, design-focused position, I demonstrated strong creative skills, an eye for aesthetics, and the ability to work directly with clients to bring their visions to life
